It is stated by Mr itussel! that on the day he made his case application for securities, Mr. Helley agreed to furnish them on the condition that there should be deposited with him in their place the ecceptances of Gov. Floyd as Secretary of War. Mr. Russell, it would oppear, had then on hand \$734,000 of acceptances, \$72,000 of which were unconditional, and the balance con ditioned and payable out of the payables of Russell, Majors & Waddell for 1861. [Copies of acceptences will be found smbreced in the testimony of the Hon. Jacob Thompson.] The amount of the bonds he received on that and previous occasions wes \$370,000 or \$371,000. There was therefore wantieg to make up the requisite sum of securities \$135,000, and we accordingly find that there is an ecceptance bearing date of Dec. 13 for that precise amount. When it is remembered that thet was the date of the ast delivery of bonds and of the receipts therefor, the inference seems unavoidable that the acceptance was issued to make up en ascertained deficioney, and that it was anticipated it would go into the passession of Mr. Bailey. There are uther facts that should be stared in this connection. Mr. Russell fixes the probable earnings of his firm for the year 1861 at from \$500,000 to 3600,000, while Captain Yan Vites estimated them of \$488,000 for 1860, and General Johnson says in his testimony that fur the present year they will be about what they were in 1860, which was \$540,000, including a payment made in Washington by Captain Miller, of a little more than \$69,000. conditional acceptances given to Mr. Bailey smount to \$798,000, or \$248,000 more than

In 1858, the Secretary of Wor commencethe issue of acceptances, and at the same time wrote to various banks, and individuals, urging them to purchase, or discount. One of his letters, and one from Col. Drinkard, Ohiof Clerk of the War Department, to Jes. J. Soutter, Esq., President of the Bank of the Republic, will be found included in the testimony taken in New York. Copies of various other letters relating to the same subject, obtained from the War Department, accompany this report. Mr. F. P. James, of New York city, testified before the Com-mittee that Mr. Soutter, to whom reference quaintances remember to have seen him and with it a letter from the Secretary of war, stating that he had Issued, or was arrest, end as no trace of him has yet been about to issue, acceptances in favor of discovered, it is evilent that he has obbefore the Committee or the Courts. In view of this eircumstance and the advice given by the District-Attorney, and under the belief that unless a full statement could be obtained from some one immediately connected with the transaction, no estisfactory report could be made of the facts in relation to the anid frand as was required by the resolution of the House, and it was determined to afford Mr. Russell an opportunity

> In relation to the ecceptances issued unthe facts they have been able to discover, as fully as possible. They amount in the eggregate to the enormons sum of \$6,175,395. Add thereto the conditional acceptances which heve already been thrown back upon the Government through the agency of Mr. Bailey, and the sum total ie \$6,977,395. This estimate is based upon data furnished by the War Department. It appears there-from, that acceptances to the amount of \$840,000 were returned to the Department for cancellation. Mr. Russell, however, claims to have returned only \$200,000 or could not therefore be negotiated. But this assertion is positively contradicted by the issue acceptances at the Department or at ter of greet uncertainty whether or not the \$810,000 should be deducted from the sum heretofore stated. The probability is that when the acceptances were returned to Gov. Floyd by Mr. Russell, he eccepted others at the same time, for the same amount, of which there was no registry made. It is tion that the acceptances made in the place of those returned were registered. Upon this hypothesis, the \$840,000 must be dethat Department, \$5,339,395 etili in circulation. Add to this amount the \$798,000 of gate is \$6,187,305. Here, then, conforming the statement of the records of the War Department, is a deficit of \$6,137,395 to fall upon the holders of these acceptances, or to be assumed in some way by the Gov-

He also states that the sum due them on the 4th of January last, upon ourrent earnings, to be \$23,750 49, from which must be deducted \$15,000 for a duplicate payment. This amount was ascertained by telegraphing to Leavenworth (at which place the accounts of Russell, Majors & Waddell are kept), and aithough it may not include other earnings in New Mexico, it cannot be largely increased. The facts, therefore, are that Russell, Majore & Waddell not only absorbed all the sums earned by them under their contracts, and cold all the bonds they received from Mr Bailey, but also raised very large sums of monoy upon the acceptances issued by the Secretary of War. seems to demand that some mention should be made of the communication of the late Secretary of War, the Hon. thank you briefly for this grand reception given given to me, not personally, but as the representative of our great nation. Your worthy Mayor has been pleased to mention in his address to me the fortunate and egreeable journey which I have had from home on my rather circuitous route to the federal capital. I am very happy that he was enabled, in truth, to congratulate myself and company on that fact. It is true we have bad nothing thus far, to mar the pieasure of our trip. We hade not been met alone by those who assisted in giving the election to me. I say not alone, but by the whole population of the country through which we

have passed. This is as it should be. Had the election fallen to ony other of the distinguished candidates instead of myself, it would have been proper for all citizens to have greeted him as you now greet ms.
